How long is it? What is the source? Where does it flow through? Where does it flow to? How has the river been used in the past? How is it used today?

Lesson 2 - Science

The life cycle of a flowering plant show the changes that take place over a plant's lifetime.

The main stages are:

1. Germination
2. Growing and flowering
3. Pollination
4. Fertilisation and seed formation
5. Seed dispersal

Research and find out what happens at each of these stages and create a poster to show it.

You will find some information which may help you in your packs!
