| Maths | Baseline <br> Numeral 1 <br> - 2D shape: circle | Numeral 2 <br> - Sorting <br> - Pattern | Numeral 3 <br> - 2D shape: <br> triangle <br> - Sorting <br> - Length/Height | Numeral 4 <br> - 2D shape: square \& rectangle <br> - Sorting | Numeral 5 <br> - Measures <br> - Capacity | Recap and application of numerals 1-5 <br> Positional language <br> Recap 2D shape <br> Weight |

Reception

| Mastering Number (MonFri) | Autumn 1 | Autumn 2 | Spring 1 | Spring 2 | Summer 1 | Summer2 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Subitising | Revise numbers 1 5 | Within 5 conceptually and perceptually Patterns within 4 Use fingers to represent quantities they can subitise | Build confidence of subitising within 5structured and random arrangements Patterns using 5 and more than 5 - including 5 as a part <br> Patterns with small group and 1 more Match arrangements to fingers | ```Symmetrical patterns - linking to doubles``` | Explore familiar subitising patterns including 1 more and doubles Use subitising when number patterns are shown in different ways and when patterns are similar but are a different number Subitise structured and unstructured patterns Encouraged to know when to count and when to subitise | In this half-term, the children will consolidate their understanding of concepts previously taught through working in a variety of contexts and with different numbers. |
| Cardinality, Ordinality and Counting | One to one correspondence <br> Counting to 5 <br> Counting songs and rhymes | One to one correspondence/ knowing the last number of the Counting through rhymes and songs Anything can be counted Support accurate counting | Verbal counting to 20 and beyond Object counting building strategies and accuracy Link counting to cardinality Order numbers | Cardinality of numbers within 10 Become more familiar with the counting pattern beyond 20 | Develop verbal counting to 20 and beyond <br> Count from different starting points Develop confidence in verbal and object counting | In this half-term, the children will consolidate their understanding of concepts previously taught through working in a variety of contexts and with different numbers. |

|  |  | Explore cardinality of 5 <br> Begin to count beyond 5 Recognise numerals to 5 |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Composition | Showing numbers Making numbers using objects | All numbers can be made with 1s <br> Compose own numbers within 5 <br> Explore parts and wholes | Composition of 5 missing/hidden parts Composition of 6 Numbers to 10 can be seen as 5 and a bit more | Odd and even numbers using the 'shape' of these Begin to link even to doubles Begin to explore composition within 10 | Explore composition of 10 | In this half-term, the children will consolidate their understanding of concepts previously taught through working in a variety of contexts and with different numbers. |
| Comparison | Language of comparison | Sets can be compared Use language of comparison - more than, fewer than Compare by looking/subitising and matching Compare equal sets | Compare and use language to compare, play comparison games Compare by matching equal sets Explore making unequal sets | Compare numbers and reason about which is more using its howmanyness and position in the number system | Order sets of objects <br> - link to <br> understanding of ordinal number system | In this half-term, the children will consolidate their understanding of concepts previously taught through working in a variety of contexts and with different numbers. |
