

In this half-termly newsletter we want to keep you informed of the latest online safety updates, as well as sharing information with you about how to keep your children safe online. It is vital that you know what to do if you have any concerns about your child's or another child's online activities.

WEARABLE TECH

More and more children are being given technology that con be worn, e.g. smartwatches and whilst there can be benefits the risks aren't always apparent. This article from Internet Matters explores wearable technology for children and gives advice on many of these.

ONLINE SAFETY - U5S

As more and more younger children get access to their own or borrowed tablets it's important to make sure these devices are set up correctly and children are using age-appropriate apps/games. Internet Matters have a great set of resources for parents of these younger children which you can find by clicking on the image.

GEN AI

Children and young people are often the first to adopt new technologies, often out of curiosity or because their friends are using it. As generative AI is embedded more into all of our lives, there seems to be a huge surge of 'this new solution can save you hundreds of hours of work a week' and other related products, but very little of the real concerns that are associated with GenAI, including concerns to children.

ONLINE VIEWING FOR CHILDREN

Children love watching their favourite shows, exploring educational videos, or discovering new websites, but not all content is suitable for young viewers. Here's how you can create a safer online environment for your child.
